THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION.

PLEASE REVIEW IT CAREFULLY.

Each time you visit a physician, or other healthcare provider, a record of your visit is made. Typically, this record contains your symptoms, examination and test results, diagnoses, treatment, a plan for future care or treatment, and billing-related information. This notice applies to all of the records of your care generated by this practice.

Our Responsibilities

We are required by law to maintain the privacy of your health information and provide you a description of our privacy practices. We will abide by the terms of this notice.

Uses and Disclosures

How we may use and disclose Medical Information about you.

The following categories describe examples of the way we use and disclose medical information:

For Treatment: We may use medical information about you to provide treatment or services. We may disclose medical information about you to doctors, nurses, technicians, medical students, or other personnel who are involved in taking care of you. For example, a doctor treating you for an infection may need to know if you have diabetes because diabetes may slow the healing process.

For Payment: We may use and disclose medical information about your treatment and services to bill and collect payment from you, your insurance company or a third party payer. For example, we may need to give your insurance company information about your surgery so they will pay us or reimburse you for the treatment.

For Health Care Operations: Members of the medical staff may use information in your health record to assess the care and outcomes in your case and others like it. The results will then be used to continually improve the quality of care for all patients we serve. For example, we may combine medical information about many patients to evaluate the need for new services or treatment. We may disclose information to doctors, nurses, and others for educational purposes.

- ◆ For population based activities relating to improving health or reducing health care costs.

Business Associates: There are some services provided in our organization through contracts with business associates. When these services are contracted, we may disclose your health information to our business associate so that they can perform the service we require and bill you or your third-party payer for services rendered. To protect your health information, however, we require the business associate to appropriately safeguard your information.

Research: If you are participating in a research project, we may disclose information to researchers when an institutional review board that has reviewed the research proposal and established protocols to ensure the privacy of your health information has approved their research.

Future Communications: We may communicate to you via newsletters, our website, mail outs or other means regarding treatment options, health related information, disease-management programs, wellness programs, or other community based initiatives or activities our practice is participating in.

Affiliated Covered Entity: Protected health information will be made available to hospital personnel as necessary to carry out treatment, payment and health care operations. Caregivers at other facilities may have access to protected health information at their locations to assist in reviewing past treatment information as it may affect treatment at this time.
